

BACK TO NATURE OUTINGS

Catch A Canoe

Treat your group to an adventure up Big River and deep into the redwoods where you will see river otters, seals and beautiful coastal birds. The dock at Catch-A-Canoe is an easy walk from the campground and their outrigger canoes are designed for all skill levels. Bike rentals are also available for trail rides along the river.

J. Moran Naturalist Tours

Enrich your groups stay with a private guided tour from local naturalist J. Moran. Custom packages available for inland excursions through redwood forests, lush fern canyons and woodland waterways or head to the coastal bluffs for tide pooling where you will experience and learn about our unique eco-system.

Sea Kayaking

Looking for a little more adventure, take your group Sea Kayaking. Kayak Mendocino will outfit and guide you into the exhilarating open sea where you will explore sea caves and take in the rich coastal habitat. Excursions can accommodate groups of all size, no prior experience is necessary.

Forest Bathing

Experience the forest through walking, visual and breath meditations to slow the mind, activate your senses, and re-establish your connection to nature. Eco-therapy benefits the mind and body and supports the immune system by reducing stress and anxiety.
